

ONLINE SURVEYOR

Having been recently awarded several key projects, NextGeo is once again expanding its team.

We are looking for an experienced Online Surveyor who will take ownership of acquiring and processing accurate positioning data and assisting in managing and carrying out required tasks in the field as requested by the Party Chief or Project Manager.

We offer exciting projects (primarily in the Mediterranean, Baltic and North Sea), an extremely accessible senior leadership team, excellent personal development opportunities, and a fun yet professional working environment.

Competitive salary based on 180 offshore days per year

Responsibilities will include:

- The installation, testing, calibration, and operation of hydrographic and geophysical survey equipment to the required standards and in accordance with client and company specification and procedures
- Monitoring data quality from all online survey systems during acquisition and reporting non-conformance immediately
- Recording and reporting equipment calibrations
- Recording and reporting vessel/ROV and sensor offsets
- Maintaining accurate logs and records during survey operations
- Calculating and computing survey results
- Assisting in survey reporting
- Assisting in the deployment and recovery of survey sensors as required by the Survey Party Chief

When applying, please demonstrate:

- Qualification in an appropriate survey related subject
- HNC/HND qualification with appropriate field experience
- All industry required certificates to work offshore (Bosiet/OGUK etc.) or willingness to obtain
- Valid passport and/or visas to travel internationally
- Previous experience in a similar role

To apply, please submit your CV to recruitment@nextgeosolutions.com using the subject heading: Online Surveyor 007/22
