

CPT OPERATOR

Posted:
01/02/2023

As part of NextGeo's continuous growth, we are expanding our geotechnical team and are therefore looking for an autonomous, experienced, and professional CPT Operator.

Closing:
28/02/2023

We offer exciting projects (primarily in the Mediterranean, Baltic and North Sea), an extremely accessible senior leadership team, excellent personal development opportunities, and a fun yet professional working environment.

**Competitive salary
based on 180
offshore days per
year**

Main responsibilities will include but not limited to:

- Conducting geotechnical site investigations by acquiring high-quality geotechnical data using equipment such as down hole CPT tools
- Operating, maintaining and repairing geotechnical equipment
- Preparing, setting up, testing and maintaining CPT tools and equipment used to acquire geotechnical data
- Working closely with the drill team to ensure adherence to scope of works, project specification and quality expectations
- Managing stock and requesting necessary equipment

The right candidate will:

- Be mobile and able to travel freely
- Have worked in multi-cultural environments where different beliefs are embraced
- Embrace NextGeo's health and safety culture
- Recognise whether CPT data and sampler recovery are of good quality
- Possess a relevant Diploma in Electro-Mechanical, Electrical or IT (preferred not essential)
- Be experienced offshore using CPT equipment such as APB Wison, Geomil Orca for down hole system, and APB Roson and Geomil Mantas for the seabed system
- Possess electro-mechanical/electrical knowledge and experience
- Have experience using IT systems and software
- Be familiar with the System Orca 90

To apply, please submit your CV to recruitment@nextgeosolutions.com using the subject heading: CPT Operator 002/23
