

GEOTECHNICAL ENGINEER (OFFICE-BASED)

NextGeo has recently been awarded several key projects; therefore, we are looking to further strengthen our team by recruiting an office-based Geotechnical Engineer who will be the key liaison between the office and offshore operations, and support offshore teams with daily activities to maximise offshore productivity, optimise quality and respond to client communications.

We can offer you great personal growth opportunities, exciting projects, an extremely accessible senior leadership team and a fun yet professional working environment. NextGeo boasts a comfortable working environment 15 minutes' walk from Norwich City centre with ample parking.

Competitive salary

Responsibilities will include, but not limited to:

- Reviewing geotechnical data from the vessel and support daily activity
- Writing or auditing operational reports/final reports
- Reviewing client comments and responding when required
- Analysing and interpreting Seismic CPT and engineering data
- Liaising with internal/3rd party laboratories for daily updates and general communication
- Reviewing data from laboratory results
- Working with other departments to ensure full project integration between different disciplines

The successful candidate will have:

- Sound grounding in geotechnical principles
- Higher level qualification in Geotechnics
- Auditing experience (helpful but not essential)
- Marine experience (helpful but not essential)
- Intermediate MS Excel skills
- Strong skills in MS Word
- Strong use of the English language
- Ability to travel occasionally
- Great attention to detail
- Ability to support others
- Experience in liaising between teams
- Ability to work to deadlines

To apply, please submit your CV to recruitment@nextgeosolutions.com using the subject heading: Geotechnical Engineer (Office-based) 006/23
