

NEXT GEOSOLUTIONS AWARDED A NEW CONTRACT IN THE NORTH SEA WITH DUTCH TSO TENNET WORTH APPROXIMATELY €9 MILLION

Naples, May 19th 2026 – Next Geosolutions ("**NextGeo**" or the "**Company**"), one of the leading international players in marine geoscience and offshore construction support services for the energy sector and listed on Euronext Growth Milan market, announces the **award of a contract** by **TenneT TSO B.V. ("TenneT")** with a total value of approximately **€9 million**.

The contract covers the execution of *marine survey* activities in the *offshore wind area* "**Voordelta – Nederwiek 3**", part of TenneT's *Roadmap 2030*, aimed to assess the technical feasibility of the cable corridor, identify any seabed obstacles and supporting the design and engineering phases of the infrastructure, thereby reducing operational risks during the installation of the export cables connecting the *offshore wind area* to onshore facilities.

Specifically, operational activities will include geophysical and geotechnical *marine surveys* along the cable route, based on the acquisition and processing of geophysical data for seabed mapping, complemented by deep geotechnical sampling and analyses down to 40 metres, aimed at characterize the subsoil, as well as the identification of any unexploded ordnance (UXO) and obstacles along the route.

Operations will take place within the *offshore wind area* "**Voordelta – Nederwiek 3**", in *nearshore* and *tidal* areas, with completion of activities expected by Q3 2026.

Valentina De Rienzo, CCO of Next Geosolutions, commented: *"This new contract further strengthens NextGeo's positioning as a reference partner for marine survey activities supporting the development of offshore energy infrastructures. The collaboration with TenneT demonstrates the trust placed by a leading European operator in the Group's technical expertise and integrated approach. NextGeo continues to stand out for its ability to deliver reliable and efficient solutions in complex environments, contributing to the development of the offshore energy transition."*

The award forms part of TenneT's broader European *offshore* power grid development programme and contributes to one of the most advanced infrastructure plans at continental level, in a context characterised by a growing demand for renewable energy

This press release is available in the Investor/Financial Press Releases section of the website <https://www.nextgeo.eu/>. Please also note that, for the dissemination of regulated information, the Company uses the eMarket SDIR circuit managed by Teleborsa S.r.l.

ABOUT NEXTGEO GROUP

Next Geosolutions ("NextGeo") is a leading international group providing marine geoscience investigation and offshore infrastructure support services for the energy industry, with a strong focus on renewable energy. Founded in late 2014 and part of the Marnavi Group – the largest Italian shipowner operating globally in the offshore sector – NextGeo offers engineering consulting, high-end survey and turnkey solutions, leveraging deep expertise and operational excellence in the offshore domain. With a modern fleet of DP2-class vessels (owned or operated within the Group) and a multicultural team of over 550 qualified professionals, the Company delivers a broad range of services including geophysical and geotechnical marine surveys, environmental and archaeological investigations, UXO identification and clearance, and integrated offshore construction support. In 2025, NextGeo reported a production value of €267.3 million and a net profit of €49.9 million.
